### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Carson on October 14, 2004.

The application has been amended as follows:

In claim 31, line 1, please change "29" to --30--;

In claim 32, line 1, please change "29" to --30--;

2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application is that the prior art of record does not disclose or suggest a door assembly for a vehicle including an upper door portion and a lower door portion wherein the lower door portion has a storage cavity and the upper door portion is removably mounted to the lower door portion and being selectively positionable between a first and second position relative to the lower door portion, the upper door portion in the first position being mounted to the lower door portion with the window section extending upwardly above the lower door portion and the upper door portion in the second position being received in the storage cavity. Lester et al. is the closest prior art. Lester et al. disclose in Figure 3, a lower door portion with a cavity and an upper door portion with a frame and a window section, wherein the upper door portion is mounted on the lower door portion. Lester et al. do not disclose that the upper door portion is mounted in the cavity when the upper door portion is removed from the

lower door portion. It would not have been obvious to one of ordinary skill in the art to store the upper door portion in the cavity because the upper door portion is larger than the cavity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
